Forecast For The United Kingdom
Issued by Met Office Exeter
at 1600 on Thursday 07 Oct 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Wet in the northwest. Fine elsewhere, some fog patches.

This Evening and Tonight:
Further rain at times, heavy over the hills of western Scotland. Mostly dry elsewhere with patchy low cloud and some fog, mostly across southern and southeast England. Very mild for most.

Friday:
Further rain in the northwest, the rain edging slowly northwards. Elsewhere, fog and low cloud slowly clearing to allow some warm sunshine for many, though cloudier in the far southeast.

Outlook for Saturday to Monday:
Rain will ease as it comes southeast Saturday. Dry elsewhere with patchy fog. Blustery showers in the far north Sunday. Rain will spread across the north on Monday. Temperatures near-normal.
